

T-01-1 – “State Wildlife Grant Planning”

Abstract: This grant was designed as a catch-all grant for 9 planning projects. The unifying theme of the nine projects was to gather information essential to the development of a statewide plan to protect and conserve wildlife in Louisiana. The 9 projects funded within this grant included:

1. “Avian / Herpetofauna Surveys – LSU 1”. This project was continued as a separate grant, T-05-1, beginning 1 July 2003;
2. “Avian / Herpetofauna Surveys –ULL 1”. This project was continued as a separate grant, T-06-1, beginning 1 July 2003;
3. “SWG Coordination”. This project was continued as a separate grant, T-07-1, beginning 1 July 2003;
4. “Gulf Sturgeon Winter Habitat Study Along the Chandeleur Islands”. This project was continued as a separate grant, T-08-1, beginning 1 July 2003;
5. “Identifying Swallow-tailed Kite Activity Centers: Determining Use of the State of Louisiana Managed Lands”. This project was continued as a separate grant, T-09-1, beginning 1 July 2003;
6. “Statewide Rare/Threatened/Endangered Species Inventories”. This project was continued as a separate grant, T-10-1, beginning 1 July 2003;
7. “Statewide Wading Bird and Seabird Nesting Inventory”. This project was continued as a separate grant, T-11-1, beginning 1 July 2003;
8. “Database for Tracking Rare/Threatened/Endangered Species”. This project was continued as a separate grant, T-12-1, beginning 1 July 2003;
9. “Breeding Bird Surveys Improvements”. This project was continued as a separate grant, T-13-1, beginning 1 July 2003;

More detailed information for each project may be found in the abstract listings for State Wildlife Grants started in 2003. This grant was closed 30 June 2003.

For more information about these State Wildlife Grants, or to obtain copies of final reports, please contact the State Wildlife Grant Coordinator, LDWF Fur & Refuge Division.
